

BILLET SPOT CALIPER

Caliper Highlights:

Wilwood's 1.75" diameter single piston **Billet Spot Caliper** is ideal for Micro and Mini Sprint, Kart, Off Road, Motorcycle, Drag Race Spindle Mount and industrial applications. Designed for light duty use, this floating caliper weighs just 1.20 pounds and holds a round .25" thick, .7 cubic inch brake pad, and accommodates rotors from 6.00" to 13.00" diameter and widths starting at .12". Maximum rotor width can be adjusted by specific bracket and spacer dimensions. The pads are held in place by stainless steel 10-24 x .38" long flat head cap screw (screws are included), and the caliper is available black anodized.

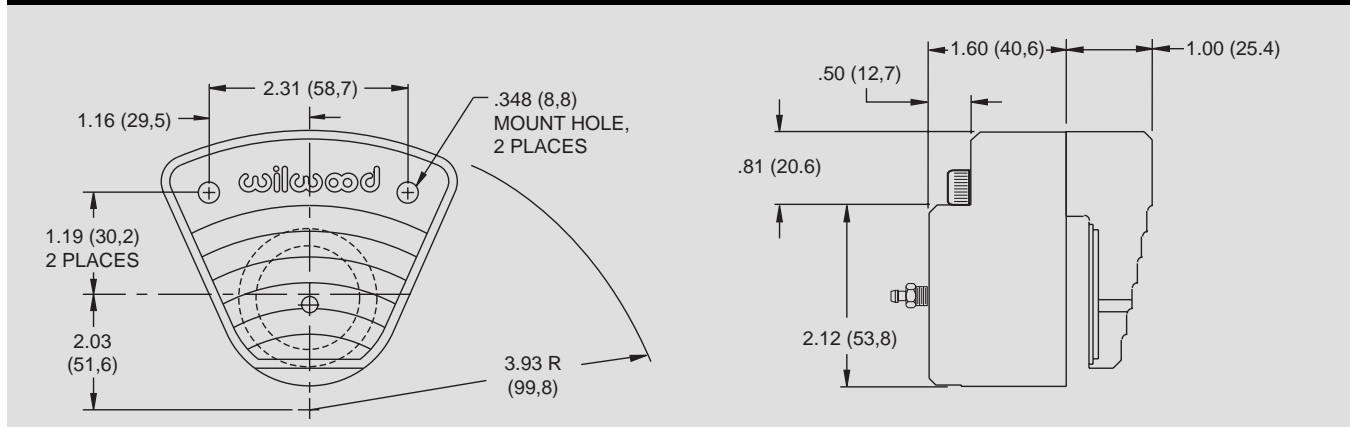

Black

CALIPER ORDERING INFORMATION:⁽¹⁾

BORE SIZE		DISC WIDTH		PART NUMBER
1.75"	44,5 mm	.12 - .38"	3,0 - 9,6 mm	120-1064
